The categories go in order 1 – 4. Each category box should contain 1 keyword which will be used in selecting a relevant category for your link. We use your keyword as a partial match to a directory.

### Example

If your keyword is sport, it would match sports, extreme sports, sports for children. The first one listed as an option is the one selected. If keyword 1 is not matched, we move to keyword 2 with the same options and repeat until keyword 4. If no matches are found, your link is not submitted.
